

This is a technique used for pre- and post-assessment of students' understanding of a topic. Choose a vocabulary word from the content (e.g., **FORMATIVE**) and ask students to write the word vertically on a sheet of paper. Students will use each letter in the vocabulary word as the first letter of a word that is a characteristic of the vocabulary word (e.g., **F** - Frequent). As a post-assessment, ask students to repeat the process.
