

First, have students study the flash cards that have the weather symbol and the meaning. They can quiz the members of their group. Work together!

After they have mastered the list, have students print off two copies of the cards and play memory.

Sunny

Partly cloudy

Cold temperatures

Windy

Rainy

Thunder storm

Cloudy

Snow

Place a weather symbol in the square below. Then find the appropriate clothing that you would predict a child would wear if they saw those symbols.

Place the clothing below that you think matches the weather symbol.

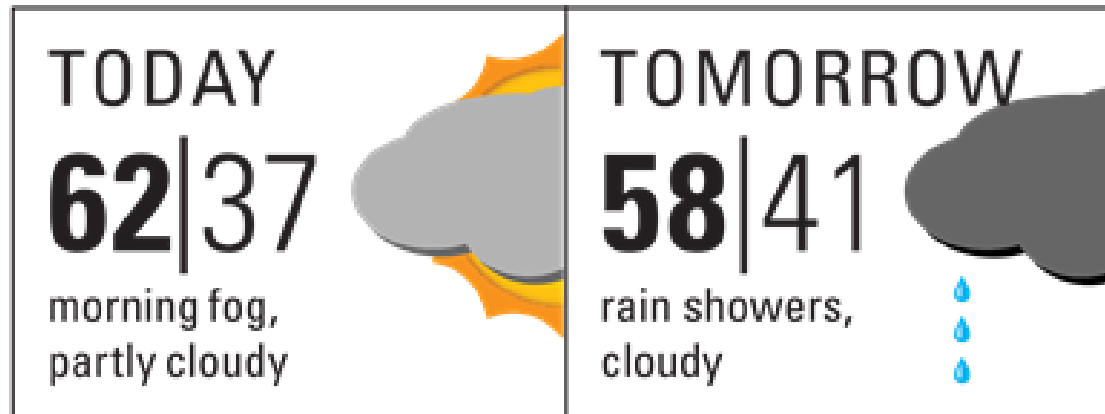

Place a weather symbol in the box. Then place the type of clothes that you would wear.

Weather

How will the weather change tomorrow?

Will it be warmer or colder tomorrow? How do you know?

What day would it be best to wear shorts and a t-shirt? How do you know?

Did you know the seasons change?

There are four seasons. Winter, spring, summer, and fall. How do you think the trees change during the seasons? Label the trees winter, spring, summer, and fall.

Spring is when the temperature begins to warm up.

Summer is the warmest season of the year.

Fall is when the temperature begins to cool off..

Winter is the coldest season of the year.

Place a season card in the box. Then place the type of clothes that you would wear in that season.
