Say: The _____ is _____ (living or non-living).

Living/Non-living checklist.

YOU

Draw your picture here

Do I breathe?

Do I need or eat food?

Do I need shelter?

Do I drink water for nutrients?

Yes	No

Did you check any of the **no** boxes? If so the object is non-living.

Did you check all of the **yes** boxes? If so the object is living.

Say: The I am _____ (living or non-living) because _____.

Living/Non-living checklist.

Place a picture below.

Does the thing breathe?

Does it need or eat food?

Does it need shelter?

Does it drink water for nutrients?

Yes	No

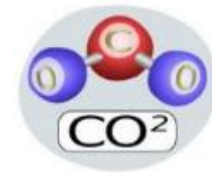

Did you check any of the **no** boxes? If so the object is non-living.

Did you check all of the **yes** boxes? If so the object is living.

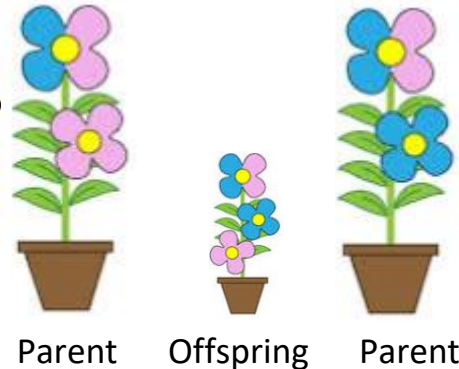

Say: The _____ is _____ (living or non-living).

Did you know that plants are living things and that they have basic needs?

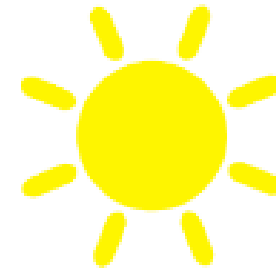

Plants need to breath carbon dioxide a gas.

Plants reproduce offspring.

Plants need sunlight for energy.

Did you know that living things need non-living things to survive?

Plants need lots of space to grow.

Water provides nutrients to the plants.

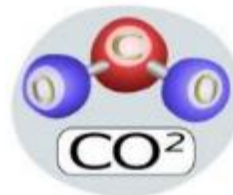

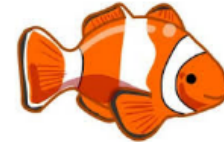

Plants also get nutrients from the soil.

Circle all the things a plant needs to survive.

Identify the need.

Flower

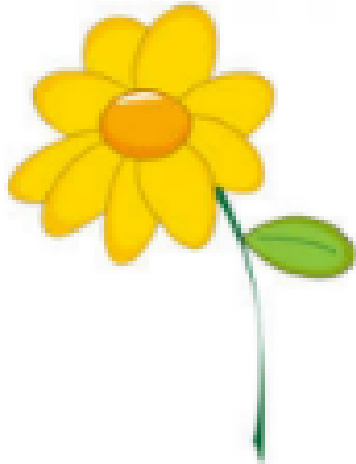

offspring (baby flowers)

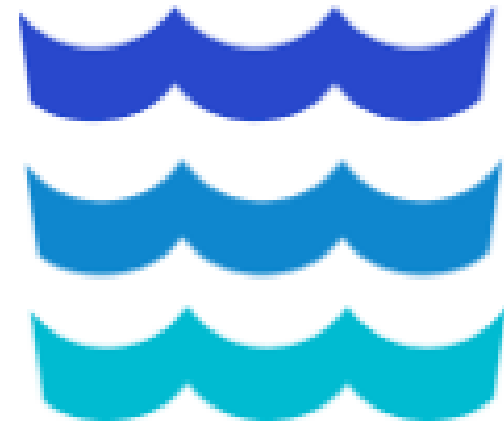

The _____ needs the _____ for

Identify the need.

Flower

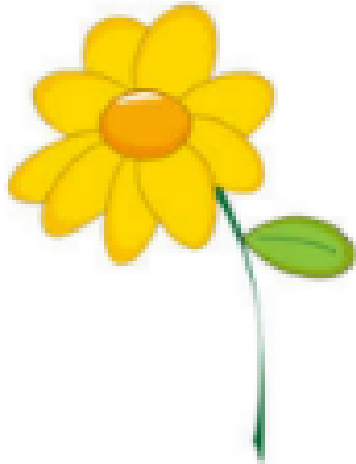

Water

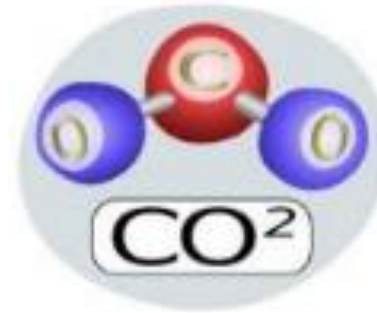

The _____ needs the _____ for

Identify the need.

Flower

Carbon

The _____ needs the _____ for

Identify the need.

Tree

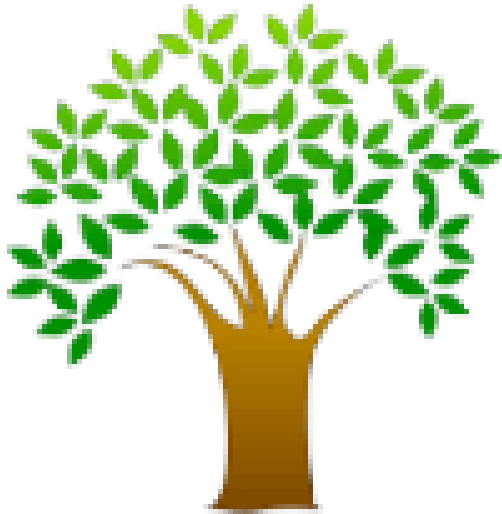

Soil

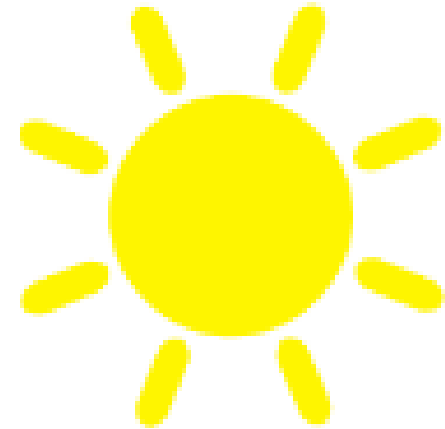

The _____ needs the _____ for

Identify the need.

Tree

Sunlight

The _____ needs the _____ for

Circle all the things a plant needs to survive.
