Cut out cards.

Rocks

Natural resources are found in nature. Rocks are a natural resource. Rocks are on the surface or below the surface. We use rocks to make things. Here are a few things that we make from rocks.

- Walls
- Buildings
- Roads

Water

Natural resources are found in nature. Water are a natural resource. Water is all over the earth. We use water for many things. Here are a few things that we use water fo.

- Drinking
- Cleaning
- Transportation
- Recreation (Fun)
- Energy
- Watering Plants

Soil

Natural resources are found in nature. Soil is a natural resource. Different types of soil are in different places. We use soil for many things. Here are a few things use soil for.

- Sand makes glass
- Foundation for buildings
- Crops and Gardens
- Foundations for roads

Cut out cards.

Oil

Natural resources are found in nature. Oil is a natural resource. Oil is under the surface. We use oil for many things. Here are a few things that use oil for.

- Make plastics
- Oil for our cars
- Makes waxes

Trees

Natural resources are found in nature. Trees are natural resources. Trees are everywhere. We use trees for many things. Here are a few things that use trees for.

- Make lumber
- Make paper
- Make pencils
- Make houses
- Fruit for food

Air

Natural resources are found in nature. Air is a natural resource. Air is everywhere. We use air for many things. Here are a few things that we make from rocks.

- Breath
- Make energy
- Power sailboats
