Weather and Climate Game!!!

1. Each group member will have one weather card and one climate card.
2. All the weather and climate description cards go in one pile face down.
3. Take turns flipping over one description card.

1. **Whoever placed the correct** description card down gets the card. For Example, if the word is “daily” and you placed your weather card on it first then you win that hand.
2. Be cautious; if you place the wrong card down you lose one of your cards. If you do not have any cards, then you lose a turn and cannot play the next card.

3. You must be able to explain you answer to win the card. Use the sentence stem “I think this is (weather, climate) because _____.”
4. If there is a discrepancy, use the weather and climate key.
5. The person with the most cards wins!!!
